AMPRO Builders, Inc.
4858 Harding Road North
St. Petersburg, Florida 33709

Dear Bill, Matt and all the guys who build dreams,

Thanks so much for all the wonderful work you did to make our condo the home the beautiful place it has become. We knew many years ago when we first bought this place that it had potential. .. and not much else back then! You guys took our plans and made them real.

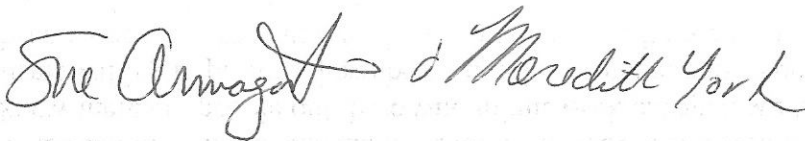

We appreciate the fact that you were honest in your assessments of what the project might take, realistic in your budget projections and creative in finding solutions to all the thorny problems we uncovered during demolition. You guys were always so considerate of everyone else in the building and we know you took pains to lessen the impact of our construction on our neighbors. We also really appreciate the creative ideas you came up with that added to the function and looks of the final product.

Please feel free to use us as references for anyone else who might be looking for a construction firm that can handle a job from start to finish in a professional manner. We know there are people out there who might work cheaper; we know there are construction firms willing to promise just about anything to get clients under contract. AMPRO has been wonderful from start to finish. You guys delivered what you promised when you promised it! You made yourselves available above and beyond what we expected when we had issues, questions or last minutes changes.

The most important thing AMPRO did for us was to provide quality work. Absolutely nothing looked shoddy when you were done even when the old infrastructure of our building was a challenge. You guys do first class work, solid and dependable, and we will enjoy living in our home for years to come because of what you managed to do here.

Thanks guys!

Sincerely,
